

FAKTUM

COLLECTION 2018-2019

faktum

Welcome!

Máté Vas • Sales Manager

Árpád Vas • CEO

EN | The 'Faktum' makes furniture for children, from babies to teenagers. Since our foundation about 25 years ago we have developed from a small manufacture to a company which meets international quality and design requirements. We sell our products all over Europe. The main features of our furniture are functionality and expandability according to the child's age. Our dedication to the harmonious development of children finds shape in manufacturing furniture with TÜV qualification. For more information see our website: www.faktumbutor.hu
We make our furniture with the same love we love our own children.

Colette**Vital**White

The shape of Colette furniture aims at the taste of families who live a trendy metropolitan life. The furniture elements standing on chic legs give spacious and practical storage spaces for the child's clothes and toys as well as for the essential necessities of baby care.

The white Colette gives a light, charming background for the child's living room, there will be joy and fun every day in a white Colette room.

Colette**Relax**Grey

The grey Colette decently keeps in the background to give space for louder, more dominant colours. In grey Colette rooms red balls start bouncing, pink ballet dresses dancing and scrawlings made with crayons come to life. The child will discover the grey Colette room again and again, and as his/her personality changes so he/she can transform the room to his/her own image. Simply, any colour and shape suit the Colette grey.

Dominant and powerful look with the latest colour in the interior design trends. The trendy combination of colours makes a modern and elegant room for children possible. In the Colette anthracite room you can apply adult accessories, they will make the room more grandiose.

Alda**Ice**Glossy

Never-failing shape in a clean, bright colour. The popular cabinets with sliding doors provide a large storage space in the child's room so that they have full functionality even in smaller spaces. The brightly white furniture elements, the fronts of glossy finish extend the room making the greyest days solemn. The practical storage baskets balance this solemnity and transform the Alda white room into a simply nice, amiable home.

Alda**Grey**Silk

Grey furniture looks good everywhere. Basically, it is free from any cuteness, however, it can be decorated well! The practicality of sliding doors is perfect, behind them there is a large storage space. The Alda grey furniture provides a pleasant, peaceful environment for the child.

Alda**Classic**

Classic warm-looking furniture. The furniture corpuses are made from Coimbra chipboard - immitating wood - provide a classic, favoured look for the cabinets. The bright sliding doors silently sweep from one side of the furniture to the other, making the clothes stored inside available.

Alda**Life**Style

Alda**Multi**Modal

Not surprisingly the popularity of combi furniture is unbroken. It combines all the furniture elements that are essential when the baby arrives: the massive safe bed for the baby, the practically designed storage compartments for the mother. And that's not all! As the child develops, the combi furniture can be transformed into a bed, shelves, a desk and small cabinets. The Alda glossy white combi stands out from the Faktum combi range. As a festive suite, it provides a beautiful and elevated environment for the baby.

Holly**Happy**Grey

Voila! – We are introducing the Holly Grey furniture to you! The very trendy, white, light grey and medium grey colours, which recall the Scandinavian purity, give a unique dynamics for the furniture look. Although, the colours are modest and neutral, the Holly Grey gives the impression of cheerful furniture. Perhaps, the dimensions...? Or the doors and drawers that open and close softly? The colourful accessories match perfectly to the geometric furniture elements of regular forms.

Holly**Honey**Classic

Love at first sight! The Holly Classic has been in our offer for many years and our customers cannot dislike it. The materials, the surfaces or even the creative-playful storage boxes of the cot have such a harmonious effect that this furniture finds its way into people's heart easily. The child will enjoy himself in a room like this!
