

Kamilla**Toscana**

Our award-winner Kamilla model has undergone some small changes, still, it radiates a completely new atmosphere. The more rustic furniture corpus of wood-effect, the pretty anodized copper handle and the painted sectional front provide a real Mediterranean home. The elements Kamilla offers meet all the requirements, no wonder that it is one of our most popular furniture. The Kamilla Toscana collection can find its place even in the parents' room.

Kamilla**Polar**

The Polar version of Kamilla flies us from the busy South to the snow-covered North. However, what the painted, soft Grey and light oak corpus provides you is not the cold of the landscape but the soft warmth of the Northern homes and their practical, cosy atmosphere. As if Christmas bells rang in this room all the time...

Emily**Mint**

Emily**Life**Style

Emily**Life**Style

Menta / Mint

Púder / Powder

Égkék / Skyblue

Bükk / Beech

First, it is good to pronounce its name (what a rhythm it has!), but it is simply incomparable to live in it. As for the constant serenity and gaiety. Not less practical this furniture made from simple elements but materials of high standards is. Just look at the legs! Look at those handles with a pleasant touch! Families with a girl may choose the powder-coloured version, while for families with a boy we have made a version decorated with panels of skyblue.

Poppi**Cute**Cartoon

Cartoons on furniture! The cutest residents of the Poppi room, which can be assembled from module elements, are teddy bears and birds decorating the cabinets. These charming characters may inspire innumerable stories depending on how the elements are put together. Of course, this is only the good property Number Two of the Poppi furniture. The Number One is practicality and great variability.

Simplicity is beautiful. Nemo is pure, no-frills, sophisticated furniture assembled with high standards. The metal handles give life to the clean, pleasant, light atmosphere, while the practical, delicate furniture elements that can be fitted between larger cabinets hype up the layout. The roomy storage spaces, the graciously smooth surfaces turn the baby's first room into a gorgeous home.

Nemo **Caravelle**

The doors and drawers of oak effect are framed by a simple, white colour. The Nemo Caravelle is well beyond the world of the traditional pieces of furniture: the oak furniture sheet has a special, old-fashioned effect on the elements. What is more, it is not pushy at all. This solution gives a special elegance for the furniture.

Eloise**Linea**

Who wants to have simple, practical but decorative furniture, choose the Eloise Linea! The elements made of white furniture sheets surrounded with self-coloured beech frames and it gives an amazingly attractive look for the furniture. The asymmetrical Eloise Linea shelf with a large cabinet, a cot and a chest of drawers – here you are, a decent, trendy room for children. If we wanted to find a new name for youthfulness, the Eloise Linea would be the first to come to our mind!

Mia**White**Angel

The Mia products consist of real best-buy elements. Its rich offer of elements creates various possibilities in the interior design for those who choose this moderate but durable model.

Traditional design, hyped up with white fronts. The pure white doors and drawers just shine on the furniture corpuses of Sonoma oak-tree effect. It is a perfect choice for those who want to choose something which is just slightly different from the „traditional” one. Though the Mia PopUp has a moderate design but there is something extravagant in it. Well, it looks good.

Well, what is classic is classic. The Mia has always been a champion in our offers but this version made from Sonoma oak furniture panels sustains this tradition. This furniture radiates warmth, cosiness and the time soon comes when the child closes the door and just laze and laze around... It will be good to pay attention to him/her a little.
