

This collection assembled from slender elements takes everything. Perhaps, because the room can be furnished with it easily due to its dimensions.... Or perhaps, because of its extraordinary colours... Or perhaps, because it can be bought for a moderate price compared to its quality... Whatever the reason may be, our customers just love it, so we do not intend to change anything in it.

Eco**Line**

Those looking for the most modern, neat design and sober solutions, do not look any further: here's the Eco line! This incredibly simple and purely practical furniture is free from any unnecessary frills. The modern, bright white room is an ideal choice for young families. And not only for the style. Just look at the price tags!

Tomi**Glaze**White

It is inspired by cosy family memories from our grandmother's time. The Tomi products are made for lovers of natural materials. The massive, almost everlasting furniture elements made from pine. They bring both the atmosphere of old-time homes and the proximity of nature in.

You can see the organic texture of the wood under the painting of the Tomi furniture, also, its touch creates a natural feeling. Though it is made for the child's room, it fits any demanding home. The Tomi is simply furniture. In its classical meaning.

Tomi**Glaze**White

Shine of rare sunrises in pale, Northern lands.

Tomi**Wenge**
